

**Amendments to the Specification**

Please insert the following paragraph after ¶ [0033] in the specification . No new matter is added.

Liquid jet pump 3 includes the following components: a housing 3.1 having a suction port 21, which is connected to reaction chamber 1; a constricted nozzle 3.2 disposed within housing 3.1, constricted nozzle 3.2 is an end of supply tube 3.3, which extends through the wall of housing 3.1 from circulation pump 6; and a drain-off tube 3.4 with an opening 3.5 opposite the constricted nozzle 3.2. Drain-off tube 3.4 extends through the wall of housing 3.1, and supply tube 3.3 and drain-off tube 3.4 extend into reservoir 7.
